

SIMPLY CLEVER

Škoda Octavia Tour

The Škoda Octavia began its successful career eleven years ago! At the time, it embodied that long-awaited vehicle that could offer customers high quality at an affordable price. Over the course of its life, the Octavia has gained the favour of more than a million drivers worldwide, and continues to do so with the limited edition Škoda Octavia Tour.

“Design for a long journey”

The Octavia Tour has gone through very subtle modifications over the years, whether you look at the vehicle as a whole or individual details. Its timeless design, a blend of elegance with practicality, never goes out of style and so the model continues to find new fans. The combi model is even considered one of the most attractive cars of this type on the market.

1. SunSet – windows with a higher density of tint in the rear part of the vehicle are a practical addition to the Octavia Combi Tour model. The tinted windows on one hand add to the car’s elegant look and on the other protect passengers from direct sun rays. **The non-removable aerial** can be easily tilted before entering a car wash.

2. The headlamps with clear optics are a prominent design element that underpin the car’s dynamics and power.

3. The front grille with the traditional Škoda logo shows instantly who is behind the Octavia Tour.

“Safety for every day”

1. The front passenger airbag deactivation indicator is located in the ceiling light fixture.

2. Height- and length-adjustable headrests contribute to the rear seat passengers’ safety.

3. The front passenger airbag must be deactivated by turning a key in a switch in the glove compartment when a child seat is fitted to the front passenger seat.

4. ESP (Electronic Stability Programme) actively assists to prevent swerving the car when cornering.

5. ASR (traction control system) ensures smooth starting and acceleration of the vehicle even in difficult conditions, such as on gravel or ice.

6. Open door warning light.

7. Driver safety seat belt warning light.

8. ABS (Anti-lock Braking System) prevents wheels locking, enabling control of the car even during intense braking.

9. The parking sensors inform you of the distance from an obstacle using sensors built into the rear bumper.

“Technology for a pleasant journey”

1. The dashboard of the Octavia Tour will win over all drivers who value maximum functionality and practicality. You will find all controls in a simple user-friendly layout exactly where you need them - right at your fingertips.

2. The large MaxiDOT display brings you useful data, such as the selected radio station frequency, average consumption or outdoor temperature.

3. Service intervals can be, depending on vehicle operation, extended up to 30,000 km, for both petrol and diesel engine versions. The time limit between the service inspections is defined as a maximum of two years.

4. Automatic transmission is available for the 1.6 MPI/75 kW petrol engine version.

5. The 1.9 TDI PD/74 kW diesel engine with a pump nozzle fuel injection system is,

for its economical and reliable operation, amongst the most popular engine versions available for the Octavia Tour model.

1. The Symphony radio with an original Škoda design features a cassette player and is equipped with Dolby noise suppression system and electronic encryption.

2. The Symphony radio with CD player also comes equipped with Dolby noise suppression system and electronic encryption, and the original Škoda design is evident at first glance. The CD player allows MP3 playback.

3. Climatronic air conditioning with electronic regulation ensures the comfort of the whole crew all year round.

4. Electrically adjustable heated external mirrors provide welcome comfort, not only during winter months.

5. Electric front and rear windows mean more comfort and safety for you. You can open and close the windows quickly and effortlessly, and

you can use the child safety lock to prevent unwanted tampering with the rear windows.

6. The multifunction switch enables you to control the on-board computer and wipers. All Octavia Tour versions feature a front wiper frequency selector.

Sports package

1. The Bamboo interior with sports front seats combines comfort, originality and refined taste.

2. The 3-spoke sports steering wheel is lined with leather making it pleasant both to the eye and to the touch.

3. The gear stick knob features a sporty design and its sleeve is made of fine leather.

4. The roof spoiler lends the Octavia Combi Tour a sporty look.

5. The 5th door spoiler underpins the Octavia Tour's excellent aerodynamic properties.

6. The front bumper with integrated spoiler in a sports design gives the car a dynamic and robust appearance.

7. The Spider alloy wheels 6.5J x 16" are a dominant piece of sports equipment.

8. The stainless steel sports exhaust tailpipe is included in the Sports package for petrol engine versions.

The **Scale interior** is intended for all those who like simple elegance.

The **Shadow interior** guarantees a pleasant feeling on all your trips.

Steel wheels 6.0J x 15" with 195/65 R15 tyres and **Drive** hub covers.

Triton alloy wheels 6.0J x 15" with 195/65 R15 tyres.

Knife alloy wheels 6.5J x 16" with 205/55 R16 tyres.

Škoda Genuine Accessories

Depending on your needs, desires or interests, you can enhance your Octavia Tour with certain items on offer from Škoda Genuine Accessories. You can choose from a wide range of equipment, from design improvements through interior comfort features to roof holders. Consult your authorised Škoda partner for current information on the entire product range.

1. The optical tuning package for the Octavia Tour model includes front and rear bumper deflectors, 5th door deflector, widening of the front and rear mudguards and a stainless steel exhaust tailpipe.

2. The aluminium lockable ski or snowboard holder is, thanks to its aluminium profile, lightweight and very sturdy.

3. The 4-piece sets of textile or rubber/textile foot mats from the accessories range are a very practical addition to the interior.

4. The branded car cosmetics are another useful accessory. Your authorised Škoda partner will gladly provide information on the entire range.

General information

ŠKODA SERVICE

Dear Škoda vehicle owners,
We offer you numerous reasons for visiting your authorised Škoda service partner.

Quality of the service network and personnel

The types of technology we integrate into your vehicle continue to become more and more advanced; therefore, our service personnel must adequately improve their professional knowledge. Authorised service centre workers regularly receive technical and also non-technical training provided by the manufacturer in order to obtain the latest knowledge for their work.

Quality of the service level monitoring system

Our goal is to meet your requirements in the best possible way; that's why we introduced our new service level monitoring system in our whole sales network - from the manufacturer up to individual service partners. It guarantees a high level of customer care and repair processes.

Quality of the repair level and customer care

Anytime your Škoda vehicle "calls" for service, call us and we will gladly schedule your individual appointment. That will give us enough time for the best possible care. Your Škoda vehicle needs and requires state-of-the-art types of technology. Only technological procedures specified by the manufacturer and the most advanced workshop equipment and diagnostic systems are able to guarantee the flawless operation and reliability of your vehicle.

Our work philosophy is based on the fair and transparent treatment of our customers. Following that philosophy, we set standard time units for vehicle repairs and maintenance. Only this mechanism allows us to provide you with a good repair price estimate. Our authorised Škoda service partners will provide you with a repair price estimate before the work starts. As a result of that, you are informed about the repair price in advance. If your vehicle needs more care than originally expected, our authorised Škoda service partners will immediately inform you and arrange further steps with you so that you always have the costs under control.

A comprehensive offer of services

From time to time your Škoda vehicle needs our expert care, either during its regular maintenance, any repairs or if you wish to purchase or borrow Škoda Genuine Accessories. We are ready for all these situations and we will always take care of both your vehicle and your mobility.

Your authorised Škoda service partner will gladly inform you about our specific offers.

ŠKODA GENUINE ACCESSORIES

Genuine accessories make every vehicle unique, giving it its own style. The Škoda Octavia Tour comes with very extensive basic equipment; however, some of the additional items can only be purchased as Škoda Genuine Accessories. These items include, for example, child safety seats, roof rails, mobile phone adapters and alloy wheels. The extra equipment offer also extends to mechanical security items and a whole series of items increasing the vehicle's utility value and individuality. Our catalogue of Octavia equipment contains more detailed information on the Škoda Genuine Accessories range.

ŠKODA GENUINE PARTS

Škoda Genuine Parts are identical to those used during the assembly of Škoda vehicles. The vehicle manufacturer knows best which part is intended for which functionality and the required parameters it needs to meet unconditionally for the car to function properly.

Safety

Every vehicle component and part has its own purpose and some of them directly determine the safety of the car's occupants. Our care for safety is proven in, for example, body structure, airbags, safety belts and most importantly in the brake system. The lives of the people in and around the car depend on the quality and operating efficiency of the brakes, especially under extreme conditions.

Availability

Thanks to the large network of authorised Škoda service partners, all Škoda drivers can be assured that they will be able to get the parts they need for their car. Škoda Auto offers a comprehensive range of parts and equipment items that are used in the vehicle's production, and does not merely focus on high-turnover parts. The supply of Škoda Genuine Parts is provided even after the relevant vehicle model is discontinued, and not just for the period specified by law: indispensable components for the operation of the car are supplied to the market for at least 15 years after the discontinuation, car equipment components are supplied to the market for at least 10 years after the discontinuation and components of door lining and carpets are supplied to the market for at least 8 years after the discontinuation.

Top quality

To verify quality parameters, the development department maintains an extensive testing facility including a test circuit with extreme polar and desert conditions, as well as material testing laboratories of the quality control department. Thanks to use of first-rate materials and technologies, Škoda Genuine Parts ensure safe and carefree driving. Precise alignment guarantees replacement of worn parts without unnecessary complications.

Long life

The use of first rate materials and top production technologies in the production of Škoda Genuine Parts ensure their maximum reliability and long life.

Original technical solutions

The knowledge gained in production and operation is continuously reflected in the search for new technical solutions aimed at obtaining a truly first-rate product, which will meet the customer's requirements.

Legislative requirements and certification

All Škoda Genuine Parts meet the legislative requirements and are approved by Škoda Auto on the basis of meeting stringent criteria. This way the customer obtains a guarantee that the components installed in their vehicle will be reliable, functional and safe.

Protection of the environment

The Škoda Genuine Parts range includes exchange parts whose production does not burden the environment with waste, excess heat and water pollution to a high degree. Returned parts and aggregates are not discarded but modified for re-use, thus re-utilising a great part of the work and energy invested in the parts during their manufacture.

INFORMATION ON THE INTERNET

Information is available at www.skoda-auto.com to assist you in deciding which vehicle suits your needs thanks to the detailed descriptions and photographs of all our models. Our Configuration program will let you try various combinations of standard equipment, engine, paint colour, interior, and extra equipment to make sure your new vehicle accurately meets your requirements. This program will also assist you with the calculation of optimum monthly payments for vehicle financing and the selection of a suitable dealer.

ŠKODA FINANCE

If you select the Škoda Octavia Tour vehicle, ŠkoFIN will assist you with financing it. The ŠkoFIN Company offers programs both for individuals and legal entities. Our Škoda Finance brand product line offers both lease and loan financing. You can contact one of our authorised Škoda partners to arrange and sign an agreement and to learn more about our product offer or the convenient special offers from ŠkoFIN. These are time-limited; however, they bring very unique and interesting benefits.

FLEET SALES

Whether your car fleet is small or large or whether you are a customer from the business or public sector, Škoda Auto and its authorised dealer network are here for you. We offer products and services tailored to your business and financial needs, including top-quality customer care, a portfolio of services corresponding to the specific requirements of corporate customers and a high quality of cars, accessories and maintenance services, which are a guarantee of low operating and ownership costs of your car fleet.

One of the most important goals of Škoda Auto is the development and production of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our Škoda cars are manufactured using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cathaphoresis (KTL) and water-soluble paints. Our company strategy includes limiting fuel consumption and emissions. As a result, the engines of Škoda Auto meet the current emission regulations. We also offer diesel engines with Diesel Particulate Filters (DPF). All products made by Škoda Auto adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, Škoda cars meet technical, safety, quality and environmental requirements. Škoda Auto contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses Škoda Auto's awareness of responsibility for, and attempts at, the sustainable development of the company and a friendly approach to life and nature.

Some models in this catalogue are shown fitted with extra equipment not necessarily included in the standard equipment. All details of technical specifications, design, equipment, materials, guarantees and appearance were accurate at the time of going to print. However, the manufacturer reserves the right to make any changes

(including changes of technical parameters or individual model equipment). Please consult your authorised Škoda partner for further details on standard and extra equipment, current prices and delivery terms and conditions. This catalogue was printed on cellulose paper which was bleached without using chlorine. The paper is 100% recyclable.
