

SIMPLY CLEVER

**Škoda**Superb and **Škoda**Octavia  
Laurin & Klement

Laurin & Klement are not just legendary pioneers of the automotive industry. These names are also synonymous with the famous automobile brand, manufactured in Mladá Boleslav since 1905.

Laurin & Klement had always been keeping up with technological developments and offered the highest structural quality, exceptional design, selected materials and sophisticated details. Their cars were tailored to the individual wishes of the customers and in their time, virtually amounted to works of art, aside from being the essence of luxury.

Following the merger of Laurin & Klement with the Škoda enterprise from Pilsen (in 1925), the face of the cars from Mladá Boleslav started to carry the Škoda logo. At first, it shared a place with the L&K mark, later assuming the position on its own.

Škoda thus carries on the tradition of manufacturing cars in Mladá Boleslav while adopting the business strategy of the original company, Laurin & Klement: to produce modern, comfortable cars with extensive equipment, to emphasise eye-catching details, employ a personal approach to customers, to provide for individual desires and to offer its cars at attractive prices.

We share the visions of our predecessors and their enthusiasm, which they employed in smoothing the path of the automotive industry. Just as our predecessors did, we look for new approaches and exceptional solutions that will satisfy even the most demanding customers. Thus it was natural that when it came to the exclusive range of Škoda models with the highest levels of equipment, intended for those who demand luxury and comfort, we settled for the name Škoda Laurin & Klement.

- 5–9** Superb L&K
- 10–17** Octavia L&K, Octavia Combi L&K and Octavia Combi 4x4 L&K
- 18** Škoda L&K exclusive limited edition
- 19** engine versions

## Superb L&K

**Behind the classically beautiful exterior hides an impressive interior.**

Thanks to its generous dimensions, even the rear seat passengers will find an exceptional level of comfort. The equipment of the car is equally plentiful. The Superb L&K brings you a luxurious equipment suite full of practical details and original features, resulting in a great experience behind the wheel.

**The original L&K badge** decorates the front mudguards.

**1. The Royalty interior** with Sterling upholstery provides exceptional comfort.

**2. SunSet** – windows with a higher density of tint in the rear part of the vehicle protect the rear seat passengers from solar radiation and the inquisitive stares of passers-by.

**3. The Feinnappa leather/artificial leather luxurious upholstery** is not only pleasing to the eye but also very practical.

**4. The L&K emblem** as a mark of genuine design on the seat upholstery.

**5. The Prominent genuine wood decor** and EtnaNero decor, which overlays the interior, are highly elegant and designed exclusively for the Superb L&K.

**6. The double exhaust tailpipe** is just another impressive detail of the L&K model.

**7. Decorative door sill strips with the L&K emblem** are not only an aesthetic detail but also protect the sills against damage.

**8. L&K alloy wheels** 7.0J x 17" with a polished surface represent an exclusive equipment of the model.

1.

2.

3.

4.

**ESP (Electronic Stability Programme)** actively assists to prevent swerving the car when cornering.

**1. Automatic transmission** is available with both petrol and diesel engine versions.

**2 The basic instrument panel** with a white backlight is elegant and user-friendly. It features

a large MaxiDOT display as standard showing data from the on-board computer (outdoor temperature, average speed, etc.).

**3. The Symphony radio with CD and MP3 player** communicates with the MaxiDOT display, bringing station info and RDS messages to the driver's field of vision.

**4. The DX navigation system** with dynamic functionality receives traffic announcements.

The information on the optimum route is also shown on the large MaxiDOT display. The navigation system display is a high-resolution device, and, when supported with a TV tuner, can also be used for TV reception and Teletext browsing. For safety reasons, TV viewing is allowed only when at a standstill. If the car is travelling faster than 6 km/h the picture disappears from the screen. The sound, however, continues to be transmitted. It's available as optional extra.

(A) Automatic transmission.

One of the most important goals of Škoda Auto is the development and production of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our Škoda cars are manufactured using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cathaphoresis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines of Škoda Auto meet the current emission regulations. We also offer diesel engines with Diesel Particulate Filters (DPF). All products made by Škoda Auto adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, Škoda cars meet technical, safety, quality and environmental requirements. Škoda Auto contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses Škoda Auto's awareness of responsibility for, and attempts at, the sustainable development of the company and a friendly approach to life and nature.

Some models in this catalogue are shown fitted with extra equipment not necessarily included in the standard equipment. All details of technical specifications, design, equipment, materials, guarantees and appearance were accurate at the time of going to print. However, the manufacturer reserves the right to make any changes

(including changes of technical parameters or individual model equipment). Please consult your authorised Škoda partner for further details on standard and extra equipment, current prices and delivery terms and conditions. This catalogue was printed on cellulose paper which was bleached without using chlorine. The paper is 100% recyclable.
